

STINA FRANCINA

BIO

Berlin-based DJ and producer Stina Francina originates from Gothenburg, Sweden, where she fell in love with electronic music in the intimate underground club scene. Drawing inspiration from the vibrant energy and sensation of freedom found in those spaces, Stina's sets and productions radiate a highly energetic and playful yet raw emotional vibe, with an emphasis on a driving narrative and a tendency to convey feelings that often lean towards melancholic yet hopeful and yearning. While influenced by a wide range of genres, she holds a special soft spot for old-school trance, which often shines through in her sets and productions as they are infused with similar emotional atmospheres while reinterpreted with a fresh and personal twist.

In 2023, Stina marked her solo EP debut with the record 'Crime de la Creme,' released on the Swedish label STRECK. Prior to that, her music has been released on labels like No Borders, Carouse, Mitsu2000, Ismus, and more. She's affiliated with the label, platform and event series No Borders.
